MEET THE FRIENDS

A Picnic Begins

Riley and friends are getting ready for a picnic. What could they pack? How much room is inside the basket?

Each friend has an idea. You can have an idea, too!

More friends and a grown-up join the story later.

READ

Will It All Fit?

Riley finds an empty basket. Her friends want to bring fruit. "Will it all fit?" she asks. Let's look inside!

What happens to the empty space when we add fruit?

PLAY

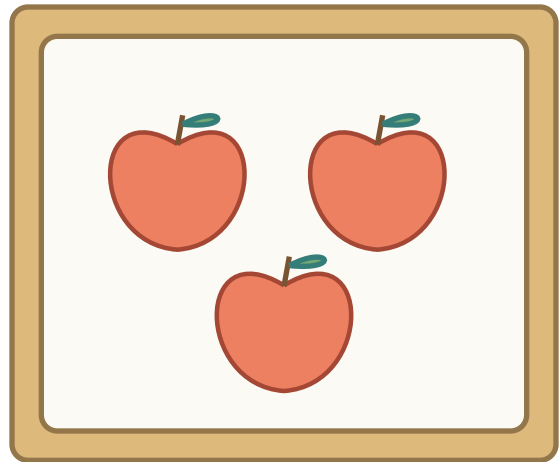

Where Is There More Room?

Look inside the same basket before and after packing. Circle the view with more empty space.

Before packing

After adding fruit

What changed? Tell your grown-up.

What fruit would you try packing next?

WITH A GROWN-UP

The basket stays the same size. Fruit takes up some of its space.
These diagrams compare empty space; they do not measure exact capacity.

COLOR & CREATE

Our Picnic Begins

Color the friends and their basket. Draw fruit you would bring in the box below.

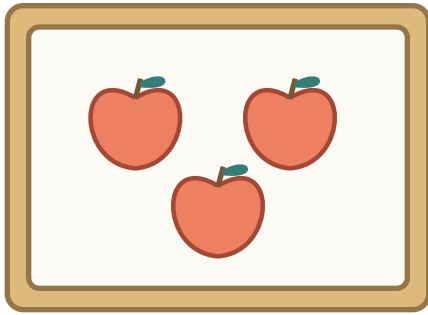

Fruit I would bring:

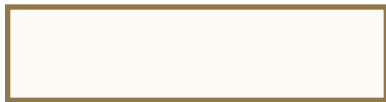

PLAY

Which Basket Can Hold More?

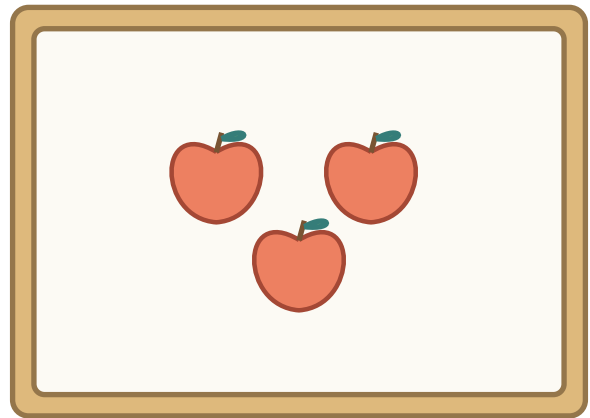

Look at the inside from above and from the front. One basket is wider, longer and deeper. Circle the basket with more inside room.

Basket A

Inside depth - front view

Same-size apples. Different-size baskets.

What makes your choice bigger inside? Tell your grown-up.

WITH A GROWN-UP

Compare all three inside dimensions, not height or fruit count alone.

Matching apples keep their size. These are simplified views, not measurements.
